PRINT SPECIFICATIONS

General Quality Assurance Guidelines:

- Avoid text below 6 points in size
- Reversed and/or multicolored text below 12 points will not reproduce well
- Insure that all fonts are embedded
- Hairlines below .25 will not reproduce well
- Produce images to final size and appropriate resolution
- RGB colors will not reproduce

Image File Specifications:

- Halftone and separation resolution: 200 ppi (150 ppi min-220 ppi max)
- Screen frequency: 100 lpi
- Line art resolution: 1270 lpi
- Total dot gain not to exceed 23% in midtone range
- All output is process CMYK
